

MHRS Services

MHRS Service	MHRS Service Description
Diagnostic/ Assessment	A Diagnostic/Assessment is an intensive clinical and functional evaluation of a Consumer's mental health condition that results in the issuance of a Diagnostic Assessment Report with recommendation for service delivery that provides the basis for the development of an Individualized Recovery Plan ("IRP") for adults or an Individualized Plan of Care ("IPC") for children and youth. A Diagnostic/Assessment shall determine whether the Consumer is appropriate for and can benefit from MHRS, based upon the Consumer's diagnosis, presenting problems and recovery goals. The Diagnostic/Assessment shall also evaluate the Consumer's level of readiness and motivation to engage in treatment.
Medication/ Somatic Treatment	Medication/Somatic Treatment services are medical interventions including: physical examinations; prescription, supervision or administration of mental health-related medications; monitoring and interpreting results of laboratory diagnostic procedures related to mental health-related medications; and medical interventions needed for effective mental health treatment provided as either an individual or group intervention. Medication/Somatic Treatment services include monitoring the side effects and interactions of medications and the adverse reactions a Consumer may experience, and providing education and direction for symptom and medication self-management. Group Medication/Somatic Treatment shall be therapeutic, educational and interactive with a strong emphasis on group member selection, facilitated therapeutic peer interaction and support.
Counseling	Counseling services are individual, group or family face-to-face services for symptom and behavior management; development, restoration or enhancement of adaptive behaviors and skills; and enhancement or maintenance of daily living skills. Adaptive behaviors and skills and daily living skills include those skills necessary to access community resources and support systems, interpersonal skills and restoration or enhancement of the family unit and/or support of the family. Mental health support and consultation services provided to Consumers' families are reimbursable only when such services and supports are directed exclusively to the well-being and benefit of the Consumer.
Community Support	Community Support services are rehabilitation supports considered essential to assist the Consumer in achieving rehabilitation and recovery goals. Community Support services focus on building and maintaining a therapeutic relationship with the Consumer. Community Support activities include: <ol style="list-style-type: none"> 1. Participation in the development and implementation of a Consumer's IRP/IPC and Community Support Individualized Service Specific Plan ("ISSP"); 2. Assistance and support for the Consumer in stressor situations; 3. Mental health education, support and consultation to Consumers' families and/or their support system, which is directed exclusively to the well-being and benefit of the Consumer; 4. Individual mental health service and support intervention for the development of interpersonal and community coping skills, including adapting to home, school and work environments; 5. Assisting the Consumer in symptom self-monitoring and self-management for the identification and minimization of the negative effects of psychiatric symptoms which interfere with the Consumer's daily living, financial management, personal development or school or work performance; 6. Assistance to the Consumer in increasing social support skills and networks that ameliorate life stresses resulting from the Consumer's mental illness or emotional disturbance and are necessary to enable and maintain the Consumer's independent living; 7. Developing strategies and supportive mental health interventions for avoiding out-of-home placement for adults, children and youth and building stronger family support skills and knowledge of the adult, child or youth's strengths and limitations; and 8. Developing mental health relapse prevention strategies and plans.
Crisis/Emergency	Crisis/Emergency is a face-to-face or telephone immediate response to an emergency situation involving a Consumer with mental illness or emotional disturbance that is available twenty-four

MHRS Service	MHRS Service Description
	<p>(24) hours per day, seven (7) days per week. Crisis/Emergency services are provided to Consumers involved in an active mental health crisis and consist of immediate response to evaluate and screen the presenting situation, assist in immediate crisis stabilization and resolution and ensure the Consumer's access to care at the appropriate level. Crisis/Emergency services may be delivered in natural settings and the Crisis/Emergency provider shall adjust its staffing to meet the requirements for immediate response. Each Crisis/Emergency provider shall obtain consultation, locate other services and resources, and provide written and oral information to assist the Consumer in obtaining follow-up services. Each Crisis/Emergency provider shall also be a DMH-certified provider of Diagnostic/Assessment or have an agreement with a Core Services Agency or a Core Services Agency's affiliated Subprovider to assure the provision of necessary hospital pre-admission screening.</p>
Day Services	<p>Day Services is a structured clinical program intended to develop skills and foster social role integration through a range of social, psycho educational, behavioral and cognitive mental health interventions. Day Services are rendered only in the setting of a DMH-certified Community Mental Health Rehabilitation Services Agency and are not eligible for reimbursement when provided in the home, community setting or residential facility of 16 beds or less. Day Services are curriculum-driven and psycho educational and assist the Consumer in the retention or restoration of community living, socialization and adaptive skills. Day Services include cognitive-behavioral interventions and diagnostic, psychiatric, rehabilitative, psychosocial, counseling and adjunctive treatment. Day Services are offered most often in group settings, and may be provided individually.</p> <p>Day Services shall facilitate the development of a Consumer's independent living and social skills, including the ability to make decisions regarding: self-care, management of illness, life, work and community participation. The services promote the use of resources to integrate the Consumer into the community.</p> <p>Day Services shall be founded on the principles of Consumer choice and the active involvement of persons in their mental health recovery and provide both formal and informal structures through which Consumers can influence and shape service development.</p> <p>Day Services shall include education on self-management of symptoms, medications and side effects; identification of rehabilitation preferences; setting rehabilitation goals; and skills teaching and development.</p>
Intensive Day Treatment	<p>Intensive Day Treatment is a structured, intensive and coordinated acute treatment program that serves as an alternative to acute inpatient treatment or as a step-down service from inpatient care, rendered by an inter-disciplinary team to provide stabilization of psychiatric impairments. Intensive Day Treatment services are rendered only in the setting of a DMH-certified Community Mental Health Rehabilitation Services Agency and are not eligible for reimbursement when provided in the home, community setting or residential facility of 16 beds or less. Intensive Day Treatment shall be time-limited and provided in an ambulatory setting for no less than five hours a day, seven days a week. Daily physician and nursing services are essential components of this service.</p> <p>Intensive Day Treatment offers short-term, day programming consisting of therapeutically intensive, acute and active treatment. The Intensive Day Treatment provider shall provide services that closely resemble the intensity and comprehensiveness of inpatient services. Intensive Day Treatment shall include psychiatric, medical, nursing, social work, occupational therapy, medication and somatic treatment and psychology services focusing on timely crisis intervention and psychiatric stabilization so that Consumers can return to their normal daily lives. Intensive Day Treatment services shall only be provided to Consumers who are not at danger but have behavioral health issues that are incapacitating and interfering with their ability to carry out daily activities.</p>

MHRS Service	MHRS Service Description
	<p>Intensive Day Treatment services shall be provided within a structured program of care, which offers individualized, strengths-based, active and timely treatment directed toward the alleviation of the impairment, which caused the admission to Intensive Day Treatment.</p> <p>Intensive Day Treatment shall be an active treatment program that consists of documented mental health interventions that address the individualized needs of the Consumer, as identified in the IRP/IPC. Intensive Day Treatment services and interventions consist of structured individual and group activities and therapies that are planned and goal-oriented and provided under active psychiatric supervision.</p>
Community-Based Intervention	<p>Community-Based Intervention services are time-limited intensive mental health intervention services delivered to children, youth and adults and intended to prevent the utilization of an out-of-home therapeutic resource by the Consumer (i.e., psychiatric hospital or residential treatment facility). Community-Based Intervention is primarily focused on the development of Consumer skills and is delivered in the family setting in order for the Consumer to function in a family environment. These services are available twenty-four hours a day, seven days a week.</p> <p>The basic goals of Community-Based Intervention services are to:</p> <ol style="list-style-type: none"> 1. Diffuse the current situation to reduce the likelihood of a recurrence, which if not addressed could result in the use of more intensive therapeutic interventions; 2. Coordinate access to covered mental health services; 3. Provide mental health service and support interventions for Consumers that develop and improve the ability of parents, legal guardians or significant others to care for the person with mental illness or emotional disturbance. <p>Community-Based Intervention services shall be multi-faceted in nature and include situation management, environmental assessment, interventions to improve Consumer and family interaction, skills training, self and family management, and coordination and linkage with covered mental health rehabilitation services and supports and other covered Medicaid services in order to prevent the utilization of more restrictive residential treatment. Community-Based Intervention services shall be delivered primarily in natural settings and shall include in-home services. In-home services - regarding medications and behavior management skills; dealing with the responses of the Consumer, other caregivers and family members; and coordinating with other mental health rehabilitation treatment providers - include support and consultation to the Consumer's families and/or their support system, which is directed exclusively to the well-being and benefit of the Consumer.</p>
Assertive Community Treatment (ACT)	<p>Assertive Community Treatment (ACT) is an intensive integrated rehabilitative, crisis, treatment and mental health rehabilitative community support provided by an interdisciplinary team to children and youth with serious emotional disturbance and to adults with serious and persistent mental illness. ACT services are provided to Consumers in accordance with the IRP/IPC with dedicated staff time and specific staff to Consumer ratios. Service coverage by the ACT Team is required twenty-four (24) hours per day, seven (7) days per week. The Consumer's ACT Team shall complete a comprehensive or supplemental assessment and develop a self care-oriented Individualized Service Specific Plan (ISSP) (if a current and effective one does not already exist).</p> <p>Services offered by the ACT team shall include:</p> <ol style="list-style-type: none"> (1) Mental health-related medication prescription, administration and monitoring; (2) Crisis assessment and intervention; (3) Symptom assessment, management and individual supportive therapy; (4) Substance abuse treatment for Consumers with a co-occurring addictive disorder; (5) Psychosocial rehabilitation and skill development; (6) Interpersonal social and interpersonal skill training; and (7) Education, support and consultation to Consumers' families and/or their support system, which is directed exclusively to the well-being and benefit of the Consumer.

MHRS Service	MHRS Service Description
	Assertive Community Treatment shall include a comprehensive and integrated set of medical and psychosocial services for the treatment of the Consumer's mental health condition that is provided in non-office settings by the Consumer's ACT Team. The ACT Team provides community support services that are interwoven with treatment and rehabilitative services and regularly scheduled team meetings.
